

How to deal with manipulative people

Navigating the Labyrinth: How to Deal with Manipulative People

We've all encountered them – the individuals who seem to subtly twist situations to their advantage, leaving us feeling drained and confused. Manipulative people prey on our vulnerabilities, exploiting our empathy and desire for connection. This isn't about judging or labeling; it's about understanding these dynamics and equipping ourselves with the tools to protect our well-being while maintaining healthy boundaries. This delves into the complexities of dealing with manipulative people, offering practical strategies and insights for navigating these often challenging interactions. **Recognizing the Manipulator's Tactics** Manipulation isn't always overt aggression; it often manifests as subtle, insidious behaviors. Think guilt trips, gaslighting, or the constant need for reassurance. Recognizing these patterns is the first step in protecting yourself. Understanding *why* someone manipulates is crucial; it's often rooted in insecurity, fear, or a deep-seated need for control. However, this understanding shouldn't diminish the impact of their actions on you.

Understanding the Dynamics of Manipulation Manipulative tactics often revolve around influencing and controlling others

through emotional leverage. This can include: • Gaslighting: Making you doubt your own perceptions, memories, and sanity. • Emotional Blackmail: Using emotional distress to coerce a desired response. • Guilt Trips: Creating a sense of obligation or responsibility to achieve their goals. • **Guiding Questions**: Carefully phrased questions designed to steer the conversation and influence your choices. • Silent Treatments: Withholding communication as a means of control. **(Visual: A simple flowchart illustrating common manipulative tactics and their potential impact on the victim.)** **(Case Study 1)**: A friend consistently uses guilt to get you to prioritize their needs over yours. They might say things like, "You're the only one who can help me," or "If you don't do this, I'll be so disappointed." **(Case Study 2)**: A colleague subtly shifts blame onto others when their work isn't up to par. They use ambiguous language and carefully worded statements to deflect responsibility.

Are there any advantages to dealing with manipulators?

face of manipulation boosts your self-esteem and assertiveness.

Navigating the Labyrinth: How to Deal with Manipulative People

Ever felt like you're constantly walking on eggshells, second-guessing your own thoughts, or feeling guilty for no good reason? If so, you might have encountered a manipulative person. These individuals, often charming and persuasive on the surface, can skillfully twist situations and emotions to their advantage, leaving others feeling drained, confused, and powerless. Dealing with manipulative people can be exhausting, but understanding their tactics and developing effective strategies can help you reclaim your emotional space and maintain healthy boundaries. This guide will delve deep into the art of identifying and handling these complex personalities.

Understanding Manipulation: What It Looks Like

Before we can learn how to deal with manipulative people, it's crucial to recognize their methods. Manipulation isn't always overt aggression; it's often subtle, insidious, and designed to exploit your

vulnerabilities. Common tactics include:

Gaslighting: The Art of Making You Doubt Yourself

Gaslighting is a particularly insidious form of manipulation where the perpetrator systematically undermines your sense of reality. They might deny things they said or did, twist your words, accuse you of being too sensitive or forgetful, and generally make you question your own sanity and memory. The goal is to make you dependent on their version of events, eroding your confidence and making you more susceptible to their influence. If you find yourself constantly questioning your own perceptions, remember that your feelings are valid, and this could be a red flag.

Guilt-Tripping: Leveraging Your Empathy

Manipulators often play on your empathy and desire to be a good person. They'll make you feel responsible for their problems, misfortunes, or unhappiness. This could involve playing the victim card, making veiled threats about their well-being if you don't comply, or reminding you of past favors they've done. The underlying message is: "If you don't do this for me, you're a bad/selfish/uncaring person." Recognizing guilt-tripping is key to disarming it.

Playing the Victim: Evoking Sympathy for

Control

A common manipulative tactic is to consistently portray themselves as a victim of circumstances, other people, or even you. This elicits sympathy and can make you feel obligated to help or defend them, even if their claims are exaggerated or untrue. By positioning themselves as helpless, they aim to gain control and avoid accountability. This can be particularly draining as it often involves a narrative of constant hardship.

Emotional Blackmail: Threats and Ultimatums

This involves using emotional leverage, often through veiled threats or ultimatums, to get what they want. They might threaten to leave, cut off contact, expose embarrassing information, or harm themselves if you don't meet their demands. The fear of these consequences compels you to comply, even if it goes against your better judgment.

Love Bombing: Overwhelming Affection to Gain Influence

At the beginning of a relationship, whether romantic, professional, or platonic, manipulators might shower you with excessive affection, gifts, and attention. This "love bombing" creates a powerful sense of connection and obligation, making it harder for you to see their flaws or refuse their later requests. Once you're hooked, the intensity can shift, leaving you confused by the sudden change.

Selective Information and Omission: Shaping Your Perspective

Manipulative people are masters at presenting information in a way that favors them. They might selectively share facts, twist truths, or omit crucial details to paint a distorted picture. This can influence your decisions and lead you to believe things that aren't entirely accurate. Always try to verify information from multiple sources if possible.

Identifying the Manipulator: Red Flags to Watch For

Recognizing manipulative behavior is the first step. Here are some common red flags that might indicate you're dealing with a manipulative individual:

- 1. You consistently feel drained after interacting with them.**
- 2. Your gut feeling tells you something is off, even if you can't pinpoint it.**
- 3. You find yourself constantly apologizing or making excuses for their behavior.**
- 4. They rarely take responsibility for their actions and always blame others.**
- 5. They try to isolate you from friends and family.**
- 6. You feel pressured to make decisions quickly or without proper thought.**
- 7. Their stories and explanations often change or don't add up.**

8. You feel a constant sense of obligation or guilt around them.

Strategies for Dealing with Manipulative People

Once you've identified manipulative behavior, it's time to equip yourself with strategies to protect your emotional well-being and assert your boundaries. This isn't about engaging in a power struggle, but about preserving your peace and autonomy.

1. Set Firm Boundaries and Stick to Them

This is arguably the most important strategy. Boundaries are the invisible lines you draw around yourself to protect your time, energy, and emotional space. When dealing with manipulators, boundaries are crucial because they are often designed to push against them. Clearly communicate what is and isn't acceptable behavior. For instance, "I will not tolerate being spoken to in that tone," or "I am not available to discuss this at midnight." The key is not just setting them, but consistently enforcing them. If a boundary is crossed, address it calmly and assertively.

2. Trust Your Intuition

Your intuition is your internal compass, and it's often your first line of defense against manipulation. If something feels wrong, even if you can't articulate why, pay attention to that feeling. Manipulators often thrive on exploiting your doubt, so learning to trust your gut instinct

can be a powerful tool. Don't dismiss those nagging feelings of unease.

3. Stay Calm and Assertive

Manipulators often try to provoke emotional reactions to gain control. When faced with their tactics, take a deep breath and aim to remain calm. Respond assertively, clearly stating your needs and boundaries without aggression. Assertiveness is about expressing your thoughts and feelings directly and respectfully, while aggression involves attacking or intimidating others. For example, instead of saying "You always make me feel bad," try "When you say X, I feel Y." This focuses on your experience without blaming.

4. Document Everything (When Necessary)

In situations where manipulation might escalate or lead to misunderstandings, keeping a record can be beneficial. This could involve taking notes of conversations, saving emails or texts, or noting down specific incidents. This documentation can serve as a reference point if you need to recall details or if the manipulator denies certain events, especially in work or legal contexts.

5. Limit Contact or End the Relationship

Sometimes, the most effective strategy is to distance yourself from the manipulator. If their behavior is consistently harmful and shows no signs of change, limiting your contact or even ending the relationship might be necessary for your mental health. This is not a

sign of weakness, but a sign of self-respect. This could mean reducing the frequency of your interactions, creating physical distance, or in severe cases, cutting off communication entirely.

6. Don't Get Drawn into Their Dramas

Manipulators often thrive on creating drama and conflict to keep others engaged and off-balance. Resist the urge to get pulled into their endless cycles of complaints, accusations, and justifications. Politely disengage from these conversations. You can say things like, "I understand you're upset, but I don't think I can help with this," or "I need to get back to work."

7. Seek Support from Others

Dealing with manipulative people can be isolating. Talk to trusted friends, family members, or a therapist about your experiences. An outside perspective can offer validation, support, and valuable insights into the situation. Sharing your struggles can alleviate the burden and remind you that you're not alone.

8. Focus on Facts, Not Emotions

Manipulators often try to bypass logic by appealing to emotions. When you need to make a decision or address an issue, focus on the objective facts. Stick to what you know to be true and avoid getting sidetracked by their emotional appeals or distortions. If they try to make you feel guilty, focus on the behavior itself and the consequences, rather than the emotional manipulation.

9. Practice Self-Care

Constantly dealing with manipulative individuals can take a significant toll on your mental and emotional well-being. Prioritize self-care activities that help you recharge and de-stress. This could include exercise, meditation, hobbies, spending time in nature, or anything that brings you joy and a sense of peace. A well-rested and emotionally balanced you is better equipped to handle challenging personalities.

10. Educate Yourself About Manipulation Tactics

The more you understand about manipulative techniques, the better you'll be at spotting them and knowing how to respond. Read books, articles, and resources on psychological manipulation, toxic relationships, and assertiveness. Knowledge is power, and understanding the psychology behind manipulation can empower you to disengage from it effectively.

When to Seek Professional Help

If you find yourself repeatedly falling prey to manipulative tactics, or if the manipulation is causing significant distress, anxiety, or impacting your relationships and work, it's crucial to seek professional help. A therapist or counselor can provide guidance, coping strategies, and support in navigating these complex situations and rebuilding your self-esteem. They can help you understand the dynamics at play and develop healthier patterns of

interaction.

Dealing with manipulative people is a skill that requires practice, awareness, and a commitment to your own well-being. By understanding their tactics, recognizing the red flags, and implementing effective strategies, you can navigate these challenging interactions with greater confidence and protect yourself from emotional harm. Remember, you have the right to set boundaries, trust your intuition, and live a life free from undue influence.

Understanding and managing interactions with manipulative people is a vital skill in both personal and professional life. While not always overt, manipulation can erode trust, drain emotional energy, and distort reality, leaving lasting psychological and relational consequences. Recognizing the subtle signs and mastering effective responses is essential for safeguarding your well-being and maintaining healthy boundaries.

Recognizing the Subtle Signs of Manipulation

Manipulative individuals often employ indirect tactics that feel natural at first

but gradually undermine autonomy and self-confidence. Common behaviors include guilt-tripping, playing the victim, using emotional blackmail, gaslighting—where they distort facts to make you doubt your memory or judgment—and exploiting empathy to gain control. These tactics thrive on emotional vulnerability, making it easy to overlook the manipulation in real time. Developing awareness of these patterns helps you catch red flags early and respond with clarity rather than reactivity.

Building Strong Emotional Boundaries

One of the most powerful defenses against manipulation is setting and maintaining clear

emotional boundaries. This means defining what behaviors are acceptable and what crosses a line, then communicating those limits firmly and consistently. Boundaries are not barriers but guardrails that protect your mental health and preserve mutual respect. When others repeatedly test or ignore these boundaries, it becomes easier to disengage or limit contact, reducing the influence they wield over your emotions and decisions.

Applying Practical Strategies to Respond Effectively

When interacting with manipulative people, staying grounded and composed is key. Start by listening without immediately reacting—giving yourself space to assess the situation

rather than respond impulsively. Use reflective statements to clarify intentions: “It sounds like you’re feeling frustrated, but let me make sure I understand.” This approach defuses tension and shifts focus toward honest communication. Avoid getting drawn into emotional arguments; instead, redirect conversations toward facts and shared goals. Over time, this builds a pattern of accountability that weakens manipulative dynamics.

Cultivating Empathy While Protecting Yourself

Empathy is essential, but it must be balanced with self-protection. Understanding why someone manipulates—often stemming from

deep insecurity or fear—can foster compassion without enabling harmful behavior. Practice mindful empathy: acknowledge their emotions without adopting their narrative or taking responsibility for their feelings. This balance preserves your emotional integrity while reducing the power they hold over you. It also strengthens your ability to respond thoughtfully, rather than react defensively or compulsively.

Long-Term Benefits of Mastering Manipulation Awareness

Developing the skill to navigate manipulative relationships yields profound long-term benefits. You gain greater emotional resilience, improved self-awareness, and stronger

interpersonal boundaries that foster healthier connections. Over time, this self-mastery enhances confidence, reduces anxiety tied to toxic interactions, and empowers you to engage with others more authentically. Moreover, by modeling healthy boundaries, you inspire others to reflect on their own behaviors, creating a ripple effect of respect and accountability.

Looking Ahead: The Future of Emotional Intelligence and Empowerment

As society increasingly prioritizes mental health and emotional intelligence, the ability to recognize and

manage manipulation is becoming a core life skill. With growing awareness through education and open dialogue, individuals are better equipped to identify unhealthy patterns early and seek support when needed. Looking forward, integrating these competencies into personal development, leadership training, and community programs will play a pivotal role in building environments where authenticity thrives and manipulation loses its grip. The future belongs to those who protect their inner world while engaging with others from a place of clarity and strength.

Navigating the Shadows: A Professional's Guide to Dealing with Manipulative People

In the intricate dance of human interaction, some individuals possess a peculiar and often damaging skill: manipulation. These are the people who, consciously or unconsciously, exert undue influence over others to achieve their own ends, often at the expense of those they target. Whether in the workplace, family dynamics, romantic relationships, or even casual social circles, encountering manipulative personalities can leave you feeling drained, confused, and questioning your own judgment. This in-depth guide, tailored for those seeking

a strategic and analytical approach, will equip you with the knowledge and tools to effectively identify, understand, and disarm manipulative tactics, ultimately reclaiming your autonomy and emotional well-being.

Understanding the Manipulative Mindset

Before we can effectively combat manipulation, we must first understand its roots and motivations. Manipulative individuals often operate from a place of insecurity, a need for control, or a deeply ingrained belief that their needs supersede the needs of others. They are not necessarily malicious in every instance, but their methods are undeniably harmful. Common characteristics of manipulative behavior

include:

Key Traits of Manipulative Personalities

- 1. Charm and Charisma: Many manipulators are incredibly personable and can initially win you over with their charm, making it harder to spot their true intentions.**
- 2. Guilt-Tripping: They excel at making you feel responsible for their problems or emotions, even when it's not your fault.**
- 3. Playing the Victim: A common tactic is to portray themselves as helpless or wronged, eliciting sympathy and making it difficult to refuse their requests.**
- 4. Gaslighting: This insidious form of**

manipulation involves making you doubt your own sanity, memory, or perception of reality.

- 5. Silent Treatment: Withholding communication as a form of punishment or control.**
- 6. Emotional Blackmail: Threatening to withdraw love, affection, or support if you don't comply with their demands.**
- 7. Flattery and Exaggeration: Using excessive praise to lower your defenses or gain favor.**
- 8. Boundary Pushing: Consistently disregarding your personal boundaries and testing your limits.**
- 9. Shifting Blame: Never taking responsibility for their actions, always finding someone else to fault.**

10. Creating Drama and Conflict: They thrive on chaos and can instigate arguments to distract from their own shortcomings or to gain an advantage.

It's crucial to recognize that not every instance of these behaviors signifies a truly manipulative individual. However, when these traits are consistently present and employed as a pattern of behavior to control or exploit others, it's a red flag. Understanding these **manipulative tactics**** is the first step in developing ****emotional resilience****.**

**Identifying Manipulative Behavior:
Subtle Signs to Watch For**

Distinguishing between genuine requests and manipulative demands

can be challenging, especially when the manipulator is skilled. Look for patterns of behavior that leave you feeling uneasy, pressured, or depleted. Here are some subtle signs that might indicate you're dealing with a manipulator:

The Unease Factor: Your Gut Feeling

Your intuition is a powerful tool. If a person consistently makes you feel anxious, drained, or as though you're walking on eggshells, pay attention. This feeling is often your subconscious picking up on subtle cues of manipulation. Don't dismiss your gut feeling; it's a vital early warning system for **toxic relationships****.**

Unbalanced Reciprocity: The One-Way Street

Manipulators rarely engage in genuine give-and-take. You'll likely find yourself doing most of the giving – favors, emotional support, concessions – while receiving little in return. This creates an imbalanced dynamic where your needs are consistently unmet.

The Power of Guilt and Obligation

A hallmark of manipulation is the creation of a strong sense of guilt or obligation. The manipulator might repeatedly remind you of past favors, highlight your supposed shortcomings, or imply that you owe them something. This is a **psychological manipulation technique**** designed to keep you compliant.**

Ambiguous or Vague Requests

Instead of clear, direct requests, manipulators often employ ambiguity. This allows them to later deny their intentions or reframe the situation to their advantage. For instance, they might say, "I could really use some help with this," without specifying what kind of help or when.

Constant Compliments Followed by Requests

Be wary of an onslaught of compliments that suddenly precede a request. This is often a form of **flattery as a manipulation tactic****, designed to lower your guard and make you more receptive to their demands.**

Strategies for Dealing with Manipulative People

Once you've identified manipulative behavior, the next step is to develop effective strategies for managing these interactions. The goal is not to confront or change the manipulator, but to protect yourself and maintain your boundaries. This requires **assertive communication skills**** and a strong sense of ****self-awareness****.**

Setting and Enforcing Boundaries: Your Shield

Boundaries are essential for healthy relationships, and they are non-negotiable when dealing with manipulators.:

- 1. Define Your Boundaries Clearly: Know what you will and will not tolerate.**
This includes your time, energy, emotional space, and personal information.
- 2. Communicate Your Boundaries Directly: State your boundaries calmly and assertively. Avoid apologies or justifications. For example, "I am not available to help with that project today."**
- 3. Be Prepared for Pushback:**
Manipulators often test boundaries. They may become upset, guilt-trip you, or try to wear you down.
- 4. Enforce Consequences: If a boundary is crossed, there must be a consequence. This might be ending**

the conversation, limiting contact, or removing yourself from the situation. Consistency is key to **boundary setting****.**

The Power of Saying "No"

Learning to say "no" is a crucial skill for self-preservation. You are not obligated to agree to every request, especially if it compromises your well-being or violates your boundaries. Practice saying "no" without guilt or elaborate explanations. A simple, firm "No, I can't" is often sufficient.

Disarming Gaslighting: Trusting Your Reality

Gaslighting is particularly damaging because it erodes your confidence. To combat it:

- 1. Keep a Journal: Document interactions and events to serve as a factual record.**
- 2. Seek External Validation: Talk to trusted friends, family, or a therapist about your experiences.**
- 3. Trust Your Gut: Remind yourself that your perception is valid, even if the manipulator tries to convince you otherwise.**
- 4. Limit Exposure: If possible, reduce your contact with individuals who gaslight you.**

Maintain Emotional Detachment: The Art of the Calm Response

Manipulators thrive on emotional reactions. When you become visibly upset, angry, or defensive, you give

them power. Practice emotional detachment by:

- 1. Taking a Pause: Before responding, take a deep breath and collect your thoughts.**
- 2. Focusing on Facts: Stick to objective facts rather than engaging in emotional debates.**
- 3. Using "I" Statements: Express your feelings and needs from your perspective, e.g., "I feel overwhelmed when..."**
- 4. Practicing Mindfulness: Being present and aware of your emotions without judgment can help you avoid overreacting.**

Documenting Interactions: Evidence and Clarity

In situations where manipulation is ongoing or has serious consequences (e.g., in the workplace), documenting interactions can be invaluable. Keep records of emails, text messages, meeting notes, and significant conversations. This provides a factual basis for your experiences and can be useful if you need to seek further recourse.

Strategic Retreat: Knowing When to Walk Away

Sometimes, the most effective strategy is to disengage. If a person consistently violates your boundaries, disregards your feelings, and leaves you feeling

drained, it may be time to consider limiting or ending the relationship. This is not a sign of weakness, but of self-respect and a commitment to your own **mental health****. This is particularly relevant when dealing with ****narcissistic manipulation****.**

Protecting Your Well-being: The Long-Term Impact

Dealing with manipulative people can take a significant toll on your mental and emotional health. The constant vigilance, the feeling of being undermined, and the emotional labor involved can lead to stress, anxiety, and even depression. Prioritizing your well-being is paramount.

Cultivating Self-Esteem and Assertiveness

Strong self-esteem acts as a natural shield against manipulation. When you value yourself, you are less likely to tolerate mistreatment. Engage in activities that boost your confidence, practice **assertive communication****, and celebrate your successes, no matter how small.**

Building a Supportive Network

Surround yourself with people who are supportive, genuine, and respect your boundaries. A strong support system can provide validation, offer perspective, and remind you of your worth. This is crucial for **recognizing manipulation patterns**** and receiving ****emotional support****.**

Seeking Professional Help

If you find yourself consistently struggling with manipulative individuals, or if their behavior is causing significant distress, consider seeking guidance from a therapist or counselor. They can provide personalized strategies for dealing with difficult personalities and help you heal from any past negative experiences. Professionals can also help you understand the dynamics of **coercive control**** and ****emotional abuse****, which can sometimes be present in manipulative relationships.**

Questions & Answers About how to deal

with manipulative people

N o	Question	Answer
1	I feel like someone is constantly trying to make me feel guilty. How can I recognize and stop this manipulative tactic?	This is often called 'guilt-tripping.' Recognize it by noticing if someone's requests or statements are consistently linked to making you feel responsible for their emotions or problems. To counter it, firmly and calmly state your boundaries. For example, 'I understand you're upset, but I can't accommodate that request right now.' Avoid over-explaining or apologizing excessively, as this can be exploited.
2	My friend always twists my words to make me look bad. What's the best way to deal with this 'gaslighting' behavior?	Gaslighting involves making you doubt your own reality. When it happens, trust your instincts. If someone twists your words, calmly correct them with factual evidence if possible. You can say, 'That's not what I said. I said X.' Or, 'My recollection of that conversation is different.' Documenting important conversations (e.g., via text or email) can also be helpful for your own reference.

3	How do I set boundaries with someone who doesn't respect them and keeps pushing?	Setting boundaries is crucial. When a manipulator repeatedly crosses them, reiterate your boundary clearly and concisely. Then, enforce a consequence. This might mean ending the conversation, leaving the situation, or limiting contact. Consistency is key; if you waver, they'll see it as an opening. Start with smaller boundaries and build up your confidence.
4	I'm finding it hard to say 'no' to a manipulative colleague without causing drama. What are some polite but firm ways to decline requests?	Polite refusal is possible. Try the 'broken record' technique: repeat your 'no' calmly and consistently without getting defensive. You can also use phrases like, 'I'm sorry, I can't commit to that at the moment,' or 'My current workload doesn't allow me to take on more.' If appropriate, offer an alternative that <i>*does*</i> work for you, but only if it's genuine and doesn't compromise your boundaries.
5	How can I protect my emotional well-being when dealing with a manipulative family member?	Dealing with manipulative family can be especially draining. Prioritize self-care. This might involve spending less time with them, limiting topics of conversation, or seeking support from friends or a therapist. Practice detachment; don't get drawn into their emotional drama. Focus on your own needs and well-being, recognizing that you can't control their behavior, only your reaction to it.

6	What are the signs that someone is 'playing the victim' to manipulate me?	Victim-playing involves consistently portraying oneself as helpless or wronged to gain sympathy, avoid responsibility, or control others. Look for patterns of blaming others for their problems, emphasizing their suffering, and deflecting any responsibility. When you notice this, avoid getting overly drawn into their narrative. Instead, encourage problem-solving and focus on facts rather than emotions. Gently steer conversations towards solutions rather than dwelling on perceived injustices.

Finding Reliable Sources

Finding reliable sources for How To Deal With Manipulative People is a critical step in ensuring content quality, accuracy, and long-term

usability. With the abundance of digital materials available online, not all sources provide complete, up-to-date, or trustworthy versions. Using reputable publishers and verified repositories helps avoid issues such as missing pages, formatting errors, or corrupted files that can disrupt reading and research.

Trusted publishers typically maintain high editorial standards and provide well-formatted versions of *How To Deal With Manipulative People*. These sources often include accurate metadata, proper pagination, and consistent layout, making them suitable for academic, professional, and personal use. Repositories associated with educational institutions, libraries, or recognized organizations are also reliable options for obtaining digital materials.

Before downloading, users should verify file details such as size, publication date, and version information. Comparing these details with official listings helps confirm authenticity. Checking user reviews or source descriptions can also reveal whether a copy is complete and properly formatted. This verification process reduces the risk of acquiring incomplete or low-quality files.

File integrity is another important consideration. Reliable sources provide files that open smoothly, display correctly, and include all expected sections. If a file fails to open, displays errors, or appears truncated, it may be corrupted. In such cases, obtaining a fresh copy from a different trusted source is recommended to ensure usability.

Evaluating digital repositories

When exploring online repositories, consider factors such as organizational reputation, transparency, and update frequency. Repositories that clearly state licensing terms, update schedules, and content sources are generally more trustworthy. Avoid websites that lack clear ownership information or aggressively promote unauthorized downloads.
